Kendriya Vidyalaya Sangathan (KVS) Primary Teacher (PRT) exam 2012

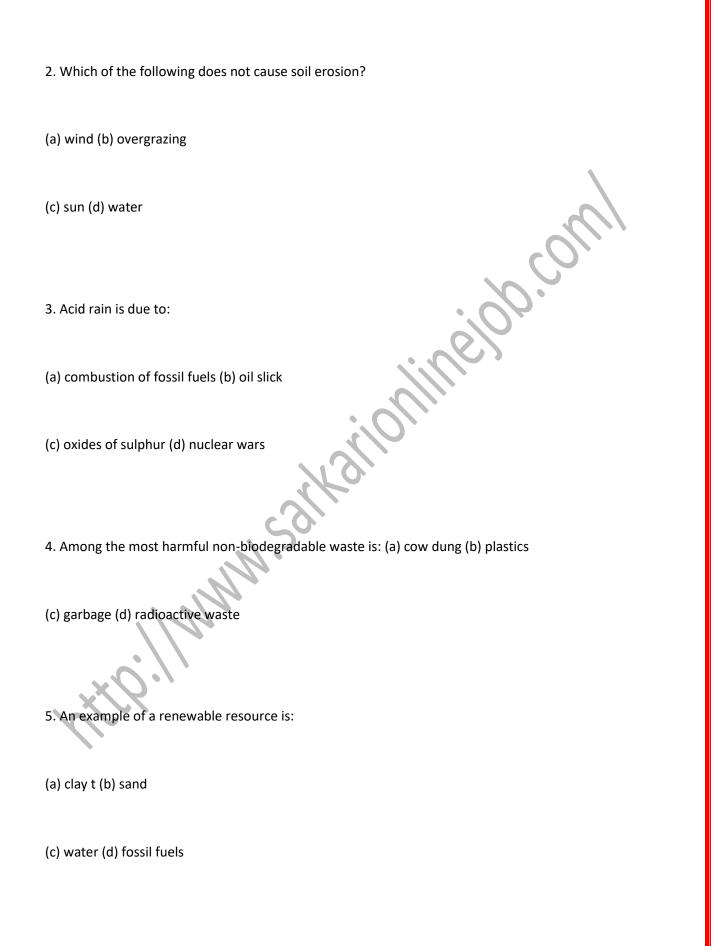

1. Absenteeism can be tackled by: (1) teaching (2) punishing the students (3) giving the sweets (4) contacting the parents 2. Discipline means: (1) strictbehaviour (2) severe punishment (3) obedience (4) going by the rules 3. If any girl child does not corne to school regularly you will (1) no bother (2) struck off her name (3) complain to the Principal (4) meet the parents and encourage them 4. In coeducation you want't to: (1) make separate rows of boys and girls (2) you give preference to boys over girls (3) you. give preference to none (4) you deal according to need 5. One of the basic prinic lples of socializing Individuals is: (1) religion (2) caste (3) educational (4) imitation Directions (6-10): Which of the skills do you consider most essential for a teacher? 6. (1) Oration skills (2) Listen ing skills (3) Managerial skills, (4) Teaching skills

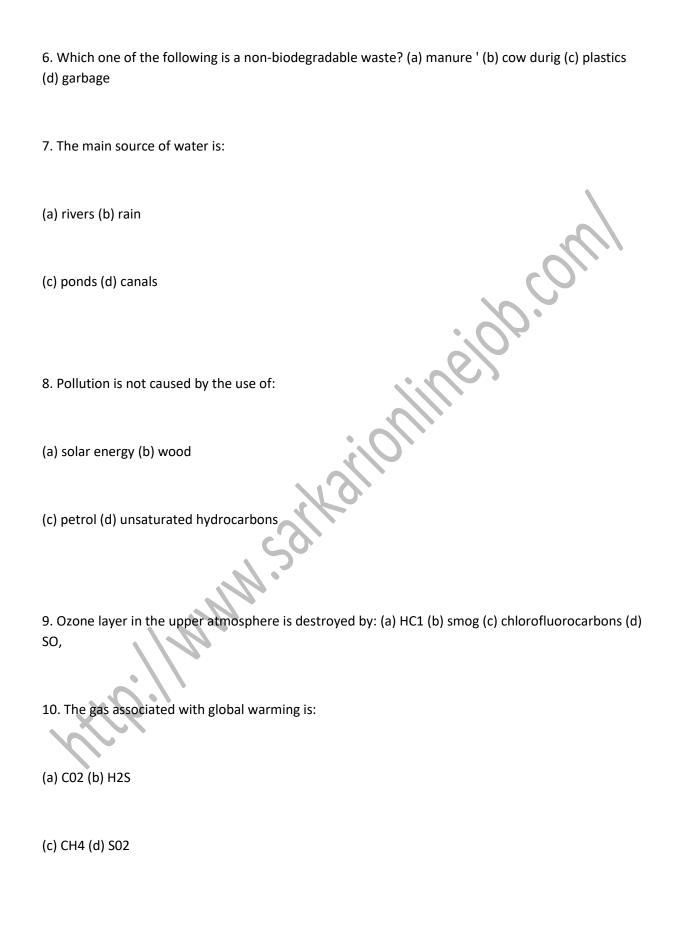

- 7. (1) encourage children to search for knowledge (2) have all the information for the children (3) a bility to make children memorize materials (4) enable children to do well in tests 8. (1) identify gift ed children (2) have an understanding of all children abilities (3) identify children with learning disabilities (4) none of the above 9. (1) ability to help children understand texts thoroughly (2) ability to help children do all the exercises (3) ability to raise possible actions from the texts (4) ability to help children from their own opinions on the text 10. (1) to communicate well (2) to use difficult language (3) to impress students (4) to read out the textbook
- 11. Success in developing values is mainly dependent upon: (1) government (2) society (3) family (4) teacher 12. Good reading aims at developing: (I) understanding (2) pronunciation (3) sensitivity (4) increasing factual knowledge 13. The primary duty of a teacher is to be responsible to his/her: (1) family (2) students (3) society (4) nation 14. Which of the following is not related to educational achievement? (1) Heredity (2) Experiences (3) Practice (4) Self learning 15. One of, the students of a class hardly talks in the class. How would you encourage him to express himself?
- (1) By organising discussions (2) By encouraging children to take part in classroom activities (3) By o rganizing educational games/ programmes in which children feel like speaking- (4) By giving good marks to those who express them'selves well

  Answers: 1.4, 2. 4, 3. 4, 4. 4, 5. 3, 5. 4, 7. 1, 8. 2, 9. 4, 10. 1, 11. 3, 12. 1, 13. 2, 14. 1, 15. 3

#### **EVS-Part**

- 1. Which are air pollutants?
- (a) aerosols (b) sewage
- (c) DDT (d) fertilizers

11. In water pollution, industries are said to be the: (a) line sources (b) point sources (c) area sources (d) none of these 12. Which of these is a non-renewable resource? (a) coal (c) water (b) forest (d) turtle 13. Which of these is biodegradable? (a) cow dung (c) coke cans (b) polythene (d) DDT 1. (a); 2. (c); 3. (c); 4. (d); 5. (c); 6. (c); 7. (b); 8. (a); 9. (c); 10. (a); 11. (a); 12. (a); 13. (a). Child Development and Pedagogy Question Paper

1. Most important work of teacher is— (A) to organize teaching work (B) to deliver lecture in class (C) to take care of children (D) to evaluate the students 2. A teacher should be— (A) Honest (B) Dilligent (C) Dutiful (D) Punctual 3. Environmental education should be taught in schools because— (A) it will affect environmental pollution (B) it is important part of life (C) it will provide job to teachers (D) we cannot escape from environment 4. Navodaya Schools have been established to— (A) increase number of school in rural areas (B) provide good education in rural areas (C) complete 'Sarva Shiksha Abhiyan' (D) check wastage of education in rural areas 5. At primary level, it is better to teach in mother language because — (A) it develops self-confidence in children (B) it makes learning easy (C) it is helpful in intellectual development (D) it helps children in learning in natural atmosphere 6. Women are better teacher at primary level because— (A) they behave more patiently with children (B) they are ready to work with low salary (C) higher qualification is not needed in this profession (D) they have less chances in other profession 7. You have been selected in all the four professions given below. Where would you like to go? (A) Teacher (B) Police (C) Army (D) Bank 8. What is most important while writing on blackboard? (A) Good writing (B) Clarity in writing (C) Writing in big letters (D) Writing in small letters 9. Some students send a greeting card to you on teacher's day. What will you do? You will— (A) do nothing (B) say thanks to them (C) ask them to not to waste money (D) reciprocate the good wishes to them

10. A student comes late in your class. Then you will— (A) inform to parents (B) punish him (C) try to

know the reason (D) not pay attention there

- 11. When the students become failed, it can be understood that— (A) The system has failed (B) The teachers failure (C) The text-books failure (D) The individual student's failure
- 12. It is advantage of giving home work that students— (A) remain busy at home (B) study at home (C) may be checked for their progress (D) may develop habit of self study
- 15. A teacher has serious defect is he/she— (A) is physically handicapped (B) belongs to low socio-economic status (C) has weak personality (D) has immature mental development
- 16. The success of teacher is— (A) high achievement of students (B) good traits of his/her personality (C) his/her good teaching (D) his/her good character
- 17. A Deepawali fair is being organized in your school. What would you like to do? (A) only to visit the fair (B) to take part in function (C) to take a shop to sell something (D) to distribute free water to visitors
- 18. The most important trait of a student is— (A) sense of responsibility (B) to speak truth (C) cooperation (D) obedience
- 19. The purpose of basic education scheme is— (A) universalization of primary education (B) to vocationalise the eduction (C) to fulfil basic need of persons through education (D) to make education compulsory for all
- 20. You are teaching a topic in class and a student ask a question unrelated to the topic. What will you do? (A) you will allow him to ask unrelated question (B) you will not allow him to ask unrealated question (C) you will consider it indiscipline and punish him (D) you will answer the question after the class
- 21. If you are unable to get a job of teacher, then you will— (A) start giving tuition at home (B) remain at home till you get a job (C) take some another job (D) continue applying for teaching
- 22. A teacher can motivate the students by— (A) giving suitable prizes (B) giving proper guidance (C) giving examples (D) delivering speech in class

- 23. If a student does not pay any respect to you, then you will— (A) ignore him (B) award less marks in examination (C) talk to his/her parents (D) rebuke him
- 25. The aim of National Council for teacher education is— (A) to open college of education (B) to promote research in education (C) to maintain standards in colleges of education (D) to provide grant to colleges of education
- 26. Kindergarten system of education was contributed by— (A) T. P. Nunn (B) Spencer (C) Froebel (D) Montessori
- 27. 'National Council of Educational Research and Training' was established in— (A) 1961 (B) 1962 (C) 1963 (D) 1964

Answers: 1. (A) 2. (C) 3. (B) 4. (B) 5. (D) 6. (A) 7. (A) 8. (A) 9. (B) 10. (C) 11. (D) 12. (D) 15. (D) 16. (C) 17. (B) 18. (D) 19. (C) 20. (D) 21. (D) 22. (A) 23. (A) 25. (C) 26. (C) 27. (A)

#### Maths-Number-Reasoning

- 1. In a division sum, the divisor is 10 times the quotient and 5 times the remainder. If the remainder i s 46, the dividend is:
- (1) 4236 (2) 4306
- (3) 4336 (4) 5336
- 2. If 1.5 x = 0.04 y, then the value of (y-x) (y+x) is:
- (1) 730/77 (2) 73/77
- (3) 7.3/77 (4) 703/77
- 3. An employee may claim Rs. 7.00 for each km when he travels by taxi and Rs. 6.00 for each km if he drives his own car. If in one week he claimed Rs. 595 for traveling km. How many kms did he travel by taxi?

- (1) 55 (2) 65
- (3) 62 (4) 70
- 4. The square root of 3 + "5 is:
- (1) "3 /2 + 1/"2 (2) "3 /2 1/"2
- (3) "5 /2 1/"2 (4) "(5/2) + "(1/2)
- 5. The mean temperature of Monday to Wednesday was 370C and of Tuesday to Thursday was 340C , if the temperature on Thursday was 4/5th that of Monday, then what was the temperature on Thursday?
- (1) 36.50C (2) 360C
- (3) 35.50C (4) 340C
- 6. A certain number of two digits is three times the sum of its digits. If 45 be added to it, the digits ar e reversed. The number is:
- (1) 72 (2) 32
- (3) 27 (4) 23
- 7. Three years ago the average age of A and B was 18 years. While C joining them now, the average becomes 22 years. How old (in years) is C now?
- (1) 24 (2) 27
- (3) 28 (4) 30
- 8. If  $2^{(2x-1)} = 8^{(3-x)}$ , then the value of x is:
- (1) -1 (2) -2
- (3) 2 (4) 3

- 9. A man's basic pay for a 40 hours' week is Rs. 200. Overtimes is paid at 25% above the basic rate. In a certain week, he worked overtime and his total was Rs. 300. He therefore, worked for a total of (in hours):
- (1) 52 (2) 56
- (3) 58 (4) 62
- 10. On a Rs. 10, 000 payment order, a person has choice between 3 successive discounts of 10%, 10 % and 30% and 3 successive discounts of 40%, 5% and 5%. By choosing the better one he can save (in Rupees):
- (1) 200 (2) 255
- (3) 400 (4) 433

#### **ANSWERS**

1. (4), 2. (2), 3. (1), 4. (4), 5. (2) 6. (3), 7. (1), 8. (3), 9. (2), 10. (2)

english comprehension

#### Directions-(Q. 1-

15) Read the following passage carefully and answer the questions given below it. Certain Words/ph rases have been printed in bold to help you locate them while answering some of the questions. Org anic farming is either really expensive or really cheap, depending on where you live and whether or not you are certified. Not only are the 'natural' pesticides and fertilizers increasingly marketed by ag ribusiness as costly as or costlier than their chemical counterparts, but proving you are an organic farmer requires certification, which is time-

consuming and expensive. In the USA, converting to organic agriculture is a huge undertaking for commercial farmers, who have relied on chemical fertilizers and pesticides for many decades, but in In dia, the conversion is no less arduous and far more ironic.

India's farmers are still mostly practising organic methods, passed down for millennia. Organic fertili zer and natural pest control are the only tools available to most of these farmers, who have always I acked the financial resources to explore chemical solutions. But these farmers, whose produce is as organic as they come, cannot afford to pay the fees required to gain official certification.

As the international community adopts standards for organic agriculture, the challenges faced by far mers in the USA versus farmers in India in order to adapt are very different indeed. The danger is that the wellintentioned global move towards organic standards will make small organic farmers in countries like India, who have never done anything but organic farming, no longer able to sell their crops.

In response to the \$ 26 billion global market for organic foods, the Indian Central Government set up a National Institute of Organic Farming in October 2003. The purpose of this institute is to formulat e rules, regulations and certification of organic farm products in conformity with international stand ards. The institute has its offices across the country and has appointed certifying agencies for organic farm products for the domestic market. The certifying agencies are accountable for confirming that any product sold with the new 'India Organic' logo is in accordance with international criteria, and launch major awareness and marketing campaigns in India and abroad.

Organic farming has been identified as a major thrust area of the 10th plan of the central governmen t. 1 billion rupees have been allocated to the aforementioned National Institute of Organic Farming alone for the 10th five-

year plan. Despite this, most of India's organic farms are not officially considered organic. Most of In dia's farms are 'organic by default'. The irony and difficulty of the new governmental push for organic agriculture is that 65% of the country's cropped area is 'organic by default', according to a study. By this somewhat degrading term they mean that small farmers, located mostly in the Eastern and North-

Eastern regions of the country, have no choice except to farm without chemical fertilizers or pesticid es. Though this is true in many cases, it is also true that a significant number of them have chosen to farm organically, as their forefathers have done for thousands of years. Many have seen for themse lves the effects of chemical farmingsoil erosion and loss of soil nutrients, loss of nutrition in food an d human diseases resulting from the chemicals that inevitably seep into the water table, all the reas ons for the urgent demand for organic foods and farming.

India currently has only 1,426 certified organic farms. This statistical discrepancy reveals that the we ak link in the organic/economic chain is certification. Under current government policy, it takes four years for a farm to be certified as organic. The cost of preparing the report is a flat fee of Rs. 5,000 a nd the certificate itself costs another Rs. 5,000. While these costs are bearable for the new industria l organic greenhouses, they are equal to or more than an entire year's income for the average small farmer, if the costs of travel and inspection are included.

In the United States, an organic farm plan or organic handling plan must be submitted to a USDAacc redited private or state certification program. The plan must explain all current growing and handlin g methods, and any materials that will be used—

in the present and any future plans must be included as well. Records for the last five years must be presented. Land must be chemical free for three years prior to harvest, so a conventional farmer ca nnot receive the organic label for the transitional years. This will generally mean a decrease in inco me—

crops may be less plentiful than with conventional fertilizers and pesticides and yet the higher price for organic products won't yet be possible. Many farmers cannot afford the transition, even if they want to.

One solution to the small farmer's dilemma of how to both certify and survive is that of community certification. In community certification, communities, on a nonprofit basis, take charge of the certification process themselves. They evaluate the farmer's commitment to the stewardship of the soil and examine from many angles whether the food is being grown in an environmentally sensitive way or not, rather than technical standards. While community certification may be a viable solution on t

he local level, it is our opinion that, in the global market place, less than exact technical standards will never be enough for today's consumer and in today's largely poisoned environment, it shouldn't be, either. Furthermore, such 'soft' guidelines can easily backfire on the farmers themselves, as a system not based on facts must be by definition subject to local politics, bribery, favoritism, etc.

India must find a way to keep the strict international organic standards intact if it wants to compete in the international market for organic foods, but is there a way to do it without leaving small farmer sout in the cold? One obvious solution is for the government to subsidize these certification fees e nough to make it a viable option for ordinary farmers, not just for neo-organic factory farms and greenhouses. Banks also could provide a more level playing field for small farmers. Currently, almost all bank loans are for pure crop farmers. While many of these bigbusiness farmers use harmful chemicals and processes, small farmers fertilizing their soil with recycled organic wastes are usually ineligible for insurance, much less state subsidies.

- 1. What role does the National Institute of Organic Farming have to play in the organic farming area
- (A) To set standards for the import of material required for organic farming within India
- (B) To ensure that Indian farm products conform to the international standard for organic foods
- (C) To suggest methods to farmers for producing the best organic products
- (D) To import the best organic foods from international countries and harvest them in India
- (E) To set up agencies internationally for the marketing of Indian organic produce

Ans: (C)

- 2. Which of the following is possibly the most appropriate title for the passage?
- (A) Agribusiness in India
- (B) Organic Farming in India—An Irony
- (C) Inorganic Farming—A Health Hazard
- (D) Small and Marginal Farmers
- (E) Organic Farming in India and the US

Ans : (B)

3. Why, according to the author, is the term 'organic by default' degrading?

- (A) The Indian farmers are adopting incorrect methods of organic farming, thereby rendering the crop useless
- (B) As the crop cultivated out of organic farming is rejected by most international agencies
- (C) As all the farmers in India do not have any access to chemical fertilizers and pesticides to carry ou t inorganic farming
- (D) As the Govt. has issued a directive to farmers in India to carry out organic farming alone
- (E) As it means that the farmers in India cannot afford to use anything but organic methods of farmin g

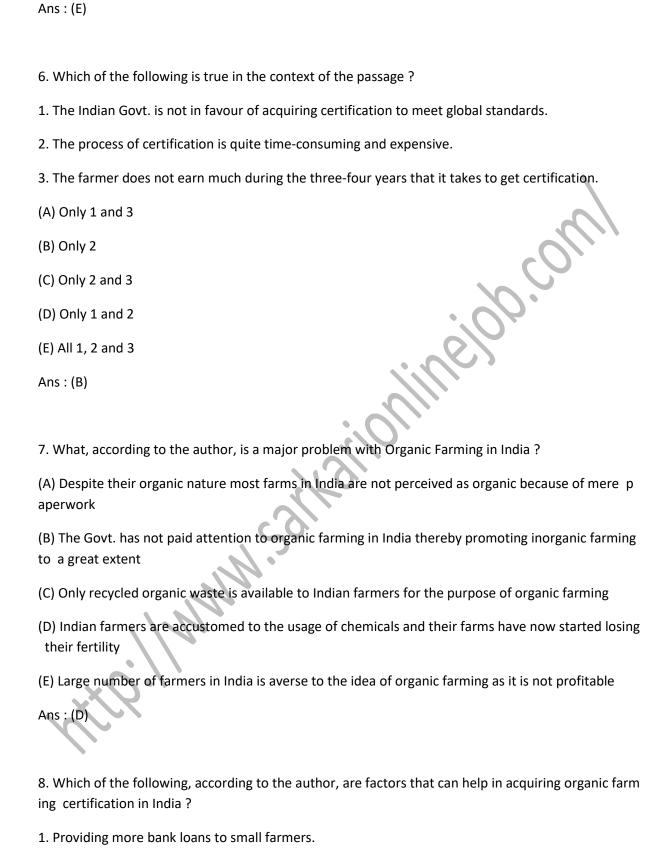

Ans: (C)

- 4. Which of the following are reasons for the increasing demand for organic foods and organic farming ?
- 1. Consumption of inorganic food has given rise to illnesses.
- 2. Excessive use of pesticides has caused soil erosion.
- 3. There has been a loss in soil nutrient value of soil due to chemical farming.
- (A) Only 2
- (B) Only 1 and 2
- (C) Only 3
- (D) Only 2 and 3
- (E) All 1, 2 and 3 are true

Ans : (D)

- 5. Why according to the author, will the idea of community certification not work?
- (A) As there may not be enough people in the community to work on a non-profit basis
- (B) As the farmers may not be forthcoming in providing information about their cultivation practices and thus lead to the failure of this system
- (C) As the certification granted through this scheme will not be authentic at all
- (D) As certification sought in this manner may give rise to vested interests and also not meet the stri ngent criteria laid down globally
- (E) None of these

псер.//	www.sarkarioninic	

3. Lowering the cost of certification.

2. Reducing the quantum of loans being provided to pure crop farmers.

(A) Only 1
(B) Only 3
(C) Only 1 and 3
(D) Only 2 and 3
(E) All 1, 2 and 3
Ans: (B)
Directions—(Q. 9–12) Choose the word/group of words which is most similar in meaning to the word/ group of words printed in bold as used in the passage.
9. ARDUOUS :
(A) Pleasurable
(B) Different
(C) Difficult
(D) Hazardous
(E) Threatening
Ans : (C)
10. FORMULATE:
(A) Regularize
(B) Contemplate
(C) Apply
(D) Frame
(E) Mix
Ans : (D)
11. DEGRADING :

(A) Corrupting
(B) Minimizing
(C) Lowering
(D) Demeaning
(E) Worrying
Ans:(C)
12. TRANSITIONAL :
(A) Extreme
(B) Intermediate
(C) Revolutionary
(D) Base
(E) Changed
Ans: (B)
Directions—(Q. 13–15) Choose the word/group of words which is most opposite in meaning to the word/group of words printed in bold as used in the passage.
13. VIABLE :
(A) Impossible
(B) Negative
(C) Deadly
(D) Practical
(E) Rudimentary
Ans : (A)
14. INEVITABLY:

(A) Avoidably
(B) Mostly
(C) Certainly
(D) Expectedly
(E) Predictably
Ans: (A)
15. ACCORDANCE :
(A) Division
(B) Quarrel
(C) Tune
(D) Enmity
(E) Conflict
Ans: (E)
1/10.
<i>C9</i> ),
